CERTIFICATIONS AND LICENSING

| | |
|--|---------------|
| Tampa General Hospital Fellowship | 2007-2008 |
| American Osteopathic Academy of Orthopedics | October 2007 |
| MAKOplasty® Total Hip Arthroplasty | December 2014 |

MAKOplasty is a robotic arm assisted total hip replacement procedure designed for those suffering with inflammatory or non-inflammatory degenerative hip joint disease (DJD). Using real-time information and images of your hip, the surgeon knows and controls accurate implant placement, which can be difficult to achieve with traditional total hip replacement techniques without a robotic arm.
